

About Presidency University

Presidency University is a Private University established by the Presidency University Act (No. 41 of 2013) by the Government of Karnataka. The University is approved under Section 2f of the UGC Act 1956. The University has successfully completed the UGC Compliance requirements. Nestled in a sprawling campus of over 66 acres with a salubrious, pollution-free ambience, the University has excellent infrastructure and outstanding academic fraternity. Committed to quality and academic excellence, the University has redefined the learning process by adopting a state-of-the-art pedagogy and curriculum, which is built on academic content that is both global and contemporary.

The University currently has 9 Schools offering over 40 UG, PG and Ph.D. Programs. In the Academic Year 2021-2022, new Programs in disciplines of Management, Advanced Computing, Liberal Studies, Design, Fine Arts and Media have been launched to prepare graduates for the new vistas created by the Industry 4.0. The campus is vibrant with co-curricular and extracurricular activities, workshops and other initiatives that will provide a commendable value addition to the Programs offered.

Presidency University, located in North Bangalore is a part of the Presidency Group of Institutions, which has a legacy of over 40 years in the education domain covering schools, colleges and allied education services. The Teaching Faculty of the University comprises of eminent and accomplished academicians from some of the premier institutions such as the IITs, BITs, NITs, NLU, IIMs, ISBs, Kellogg & University of California, and IISc, to name a few.

Industry 4.0

Industry 4.0 is gathering impetus globally and many organizations are moving rapidly to reap the benefits of disruptive technological advances in Data Science, IoT, Artificial Intelligence, Deep Learning, Blockchain, Digital Fabrication and other emerging technologies. The digital transformation is also radically transforming business and the market place. There are immense opportunities in all business domains, services and industry sectors. These new opportunities will transform into volumes of new jobs created across various sectors, requiring differently skilled talent. The business's that adopt Industry 4.0 will certainly leverage economic rewards, enrich society at large and respond to the global challenges of the environment and sustainability.

The University has comfortable Hostels for male and female students, and, provides transportation from several near and far localities of the city to the University Campus.

As part of the program, Students are being provided with professional practice twice during their stay here. For students of the School of Engineering, it is for a period of about 4 to 6 weeks after the second semester and 4 months towards the end of the course. This is a guided program which is a part of the curriculum and students spend time working on projects assigned by the industry during this time. It is not like the conventional internship. Similarly, all other UG/PG programs of the University are provided with hands on experience based on the cotemporary curriculum.

The University is having professional corporate trainers. They function under the Learning and Development division. This full-time faculty at the college teach student's subjects such as communication, aptitude, personal development and others under the broad umbrella of personal and professional skills. This is offered to students from across streams.

Placements

P r e s i d e n c y University is committed to help every student to build

his/her career and to kick start his/her professional life. The number of companies visiting the University to hire the students have increased year after year.
